

Level 3 Special Project

Space-filling Curves

Prerequisite Concepts	Concept 12
Key Concepts	Concept 14

In this study, we connect the mirrored-S/S board pattern using red 1-bit bricks. Note that the pattern shown below is the *mirror image* of the pattern in the previous study. You can confirm this by printing both patterns and then doing a side-by-side comparison where you look at the reflection of the first pattern in the mirror while looking directly at the second pattern.

Before building this artifact it is recommended that you complete all Vitruvia exercises for Concept 14.
